

# WirelessDMS: New features for iOS9

September 2015

With the launch of iOS9, WirelessDMS has been updated with many new iOS9 specific features. WirelessDMS 2.4 iOS will be available in late September 2015.

*While you wait, please note that the current WirelessDMS is also compatible with iOS9.*

## Split Screen multitasking

For newer iPads, WirelessDMS now supports iOS9's multitasking or split screen modes so you can work on documents along side other applications

## Spotlight support

iOS9 has system wide local Spotlight indexing. You can search across your emails, contacts, favorites and even local WirelessDMS documents from the home screen.

## WirelessDMS on Apple Watch

Run Quick Searches or voice searches for documents on your Apple watch.

## Handoff support

Handoff search results or a document between iOS devices, **Share for Mac** or your Apple watch. Pick up where you left off on the other device from the lock screen (iOS) or the dock (OS X).
